

# requirements

## Specification Quality Checklist: Static Landing Page

**Purpose:** Validate specification completeness and quality before proceeding to planning **Created:** 2026-05-30 **Feature:** [spec.md](#)

### Content Quality

- ☐ No implementation details (languages, frameworks, APIs)
- ☐ Focused on user value and business needs
- ☐ Written for non-technical stakeholders
- ☐ All mandatory sections completed

### Requirement Completeness

- ☐ No [NEEDS CLARIFICATION] markers remain
- ☐ Requirements are testable and unambiguous
- ☐ Success criteria are measurable
- ☐ Success criteria are technology-agnostic (no implementation details)
- ☐ All acceptance scenarios are defined
- ☐ Edge cases are identified

Scope is clearly bounded

Dependencies and assumptions identified

## Feature Readiness

All functional requirements have clear acceptance criteria

User scenarios cover primary flows

Feature meets measurable outcomes defined in Success Criteria

No implementation details leak into specification

## Notes

- All items pass validation. Spec is ready for `/speckit-clarify` or `/speckit-plan`.
- Assumptions section documents reasonable defaults for the “Get Started” link destination, tagline content, install command, and diagram approach.
