[CHECKLIST TYPE] Checklist: [FEATURE NAME]

Purpose: [Brief description of what this checklist covers]

Created: [DATE] **Feature:** [Link to spec.md or relevant documentation]

Spec Compliance

☐

CHK001 US1 Scenario 1: [Given/When/Then from spec] — implemented and tested

☐

CHK002 US1 Scenario 2: [Given/When/Then from spec] — implemented and tested

☐

CHK003 US2 Scenario 1: [Given/When/Then from spec] — implemented and tested

☐

CHK004 Edge case: [Edge case from spec] — handled correctly

Code Review

Correctness

☐

CHK010 Logic is correct and handles all acceptance scenarios

☐

CHK011 Edge cases from brainstorming are handled

☐

CHK012 Error handling is comprehensive (no silent failures)

☐

CHK013 Data validation at system boundaries

Security

☐

CHK020 No injection vulnerabilities (SQL, XSS, command injection)

☐

CHK021 Authentication and authorization checks in place

☐

CHK022 Sensitive data is not logged or exposed

☐

CHK023 Input sanitization at all entry points

Performance

☐

CHK030 No N+1 queries or unnecessary database calls

☐

CHK031 Appropriate caching where beneficial

☐

CHK032 No blocking operations in critical paths

☐

CHK033 Resource cleanup (connections, file handles, etc.)

Code Quality

☐

CHK040 Follows project conventions from constitution

☐

CHK041 Functions are focused and appropriately sized

☐

CHK042 No code duplication beyond acceptable thresholds

☐

CHK043 Naming is clear and consistent

Constitution Compliance

☐

CHK050 [Principle 1]: [Specific verification for this feature]

☐

CHK051 [Principle 2]: [Specific verification for this feature]

☐

CHK052 [Principle 3]: [Specific verification for this feature]

Test Coverage

☐

CHK060 Unit tests cover core business logic

☐

CHK061 Integration tests cover user journeys

☐

CHK062 All tests pass in CI environment

☐

CHK063 [TDD] tasks followed RED-GREEN-REFACTOR discipline

[Custom Category]

☐

CHK070 [Custom checklist item]

☐

CHK071 [Custom checklist item]

Notes

- Check items off as completed: [x]
- Add inline comments for findings or exceptions
- Link to relevant code, tests, or documentation
- Items are numbered sequentially (CHK###) for easy reference
- Report issues with confidence scores (0-100, only flag items >= 80 confidence)
