

REPORT

Motion & Interactive-Widget Functional Audit

Generated: 2026-08-05T18:40:42.137Z

Read-only. Both already-generated static sites were served locally and driven with real browser automation (Playwright: chromium + firefox + webkit). No site source was edited and the Go generator was not run. Every verdict below is backed by a live DOM measurement and, for state-changing interactions, a before/after screenshot pair under screenshots/.

- milosvasic.ru served from milosvasic.ru/_site/ (port 8482)
- vasic.digital served from vasic.digital/ (port 8481)
- Pages per site: landing (/), a product page, the portfolio page.

Functional matrix (widget x site x page — chromium deep run)

Interaction	Site	landing	product	portfolio
Scroll-reveal	milosvasic.ru	WORKS	WORKS	WORKS
Scroll-reveal	vasic.digital	WORKS	WORKS	WORKS
Sticky header	milosvasic.ru	WORKS	WORKS	WORKS
Sticky header	vasic.digital	WORKS	WORKS	WORKS
Accordion/ disclosure	milosvasic.ru	absent	absent	absent
Accordion/ disclosure	vasic.digital	absent	absent	absent
Theme toggle	milosvasic.ru	WORKS	WORKS	WORKS
Theme toggle	vasic.digital	WORKS	WORKS	WORKS
Language switcher	milosvasic.ru	WORKS	WORKS	WORKS
Language switcher	vasic.digital	absent	absent	absent

Interaction	Site	landing	product	portfolio
Dialog/modal	milosvasic.ru	WORKS	absent	absent
Dialog/modal	vasic.digital	absent	absent	absent
Lottie	milosvasic.ru	absent	absent	absent
Lottie	vasic.digital	absent	absent	absent
Bounce/blink/ highlight	milosvasic.ru	absent	absent	absent
Bounce/blink/ highlight	vasic.digital	absent	absent	absent

Theme toggle — switch + persistence (chromium)

Site	page	button id	before	after	bg changed	persists on reload
milosvasic.ru	landing	#theme-btn	light	dark	yes	yes
milosvasic.ru	product	#theme-btn	light	dark	yes	yes
milosvasic.ru	portfolio	#theme-btn	light	dark	yes	yes
vasic.digital	landing	#od-theme-toggle	null	dark	yes	yes
vasic.digital	product	#od-theme-toggle	null	dark	yes	yes
vasic.digital	portfolio	#pf-theme-toggle	null	dark	yes	yes

Note: vasic.digital uses button id #od-theme-toggle on landing/product but #pf-theme-toggle on portfolio (each with its own inline handler). Both function; the id is merely inconsistent.

Scroll-reveal — before/after state change (chromium)

Site	page	below-fold reveal targets	before transform/opacity	after transform/opacity	verdict
milosvasic.ru	landing	9	matrix(1, 0, 0, 1, 0, 16) / 1	matrix(1, 0, 0, 1, 0, 0) / 1	WORKS
milosvasic.ru	product	0	matrix(1, 0, 0, 1, 0, 0) / 1	matrix(1, 0, 0, 1, 0, 0) / 1	WORKS
milosvasic.ru	portfolio	6	matrix(1, 0, 0, 1, 0, 16) / 1	matrix(1, 0, 0, 1, 0, 0) / 1	WORKS
vasic.digital	landing	14	matrix(1, 0, 0, 1, 0, 16) / 1	matrix(1, 0, 0, 1, 0, 0) / 1	WORKS
vasic.digital	product	0	matrix(1, 0, 0, 1, 0, 1.16044e-07) / 1	matrix(1, 0, 0, 1, 0, 0) / 1	WORKS
vasic.digital	portfolio	6	matrix(1, 0, 0, 1, 0, 16) / 1	matrix(1, 0, 0, 1, 0, 0) / 1	WORKS

- Note (milosvasic.ru / product): only reveal target sits above the fold; revealed at load (is-visible set) — no scroll delta to capture.

Language switcher (chromium, landing)

- **milosvasic.ru**: WORKS — 15 languages listed; aria-expanded false -> true; Escape closes: true; opens via keyboard (Enter): true.
- **vasic.digital**: absent — site has no language switcher control (lang-like elements found: 0).

Dialog / modal + backdrop (chromium, landing)

- **milosvasic.ru**: WORKS — opens on trigger click (opacity 1), backdrop backdrop-filter: blur(4px); Escape closes: true.

- **vasic.digital**: absent — no reachable modal trigger on landing.

Long-task / jank summary (chromium, scripted full-page scroll)

PerformanceObserver longtask entries recorded while scripting a full scroll through each page. A task > 50ms blocks the main thread noticeably; > 200ms is a jank concern.

Site	page	longtask API	count	max ms	total ms	tasks>50ms
milosvasic.ru	landing	yes	0	0	0	0
milosvasic.ru	product	yes	0	0	0	0
milosvasic.ru	portfolio	yes	0	0	0	0
vasic.digital	landing	yes	0	0	0	0
vasic.digital	product	yes	0	0	0	0
vasic.digital	portfolio	yes	0	0	0	0

Reduced-motion re-render (prefers-reduced-motion: reduce)

Each page re-loaded under emulated reduced-motion. PASS = reveal content is in its final state immediately (no scroll needed) and CSS transitions are neutralised.

Site	page	browser	reveal shown immediately	transitions neutralised
milosvasic.ru	landing	chromium	PASS	PASS
milosvasic.ru	product	chromium	PASS	PASS
milosvasic.ru	portfolio	chromium	PASS	PASS
milosvasic.ru	landing	firefox	PASS	PASS
milosvasic.ru	landing	webkit	PASS	PASS
vasic.digital	landing	chromium	PASS	PASS
vasic.digital	product	chromium	PASS	PASS
vasic.digital	portfolio	chromium	PASS	PASS
vasic.digital	landing	firefox	PASS	PASS
vasic.digital	landing	webkit	PASS	PASS

Cross-browser sanity (landing — key interactions)

Site	interaction	chromium	firefox	webkit
milosvasic.ru	Theme toggle	WORKS	WORKS	WORKS
milosvasic.ru	Scroll-reveal	WORKS	WORKS	WORKS
milosvasic.ru	Language switcher	WORKS	WORKS	WORKS
vasic.digital	Theme toggle	WORKS	WORKS	WORKS
vasic.digital	Scroll-reveal	WORKS	WORKS	WORKS
vasic.digital	Language switcher	absent	absent	absent

Broken or absent interactions (page + selector)

- [ABSENT] milosvasic.ru — landing — Accordion/disclosure — selector `.od-accordion__trigger` — no `.od-accordion` elements on page
- [ABSENT] milosvasic.ru — landing — Lottie — selector `.od-lottie[data-src]` — no `.od-lottie` hosts — motion.js Lottie path never engages on this page
- [ABSENT] milosvasic.ru — landing — Bounce/blink/highlight — selector `.od-bounce` / `.od-blink` / `.od-highlight`
- [ABSENT] milosvasic.ru — product — Accordion/disclosure — selector `.od-accordion__trigger` — no `.od-accordion` elements on page
- [ABSENT] milosvasic.ru — product — Dialog/modal — selector `[data-dl] -> #dl-modal`
- [ABSENT] milosvasic.ru — product — Lottie — selector `.od-lottie[data-src]` — no `.od-lottie` hosts — motion.js Lottie path never engages on this page
- [ABSENT] milosvasic.ru — product — Bounce/blink/highlight — selector `.od-bounce` / `.od-blink` / `.od-highlight`
- [ABSENT] milosvasic.ru — portfolio — Accordion/disclosure — selector `.od-accordion__trigger` — no `.od-accordion` elements on page
- [ABSENT] milosvasic.ru — portfolio — Dialog/modal — selector `[data-dl] -> #dl-modal`
- [ABSENT] milosvasic.ru — portfolio — Lottie — selector `.od-lottie[data-src]` — no `.od-lottie` hosts — motion.js Lottie path never engages on this page
- [ABSENT] milosvasic.ru — portfolio — Bounce/blink/highlight — selector `.od-bounce` / `.od-blink` / `.od-highlight`

- [ABSENT] vasic.digital — landing — Accordion/disclosure — selector `.od-accordion__trigger` — no `.od-accordion` elements on page
- [ABSENT] vasic.digital — landing — Language switcher — selector `#lang-btn / #lang-menu` — site has no language switcher control
- [ABSENT] vasic.digital — landing — Dialog/modal — selector `[data-dl] -> #dl-modal`
- [ABSENT] vasic.digital — landing — Lottie — selector `.od-lottie[data-src]` — no `.od-lottie` hosts — motion.js Lottie path never engages on this page
- [ABSENT] vasic.digital — landing — Bounce/blink/highlight — selector `.od-bounce / .od-blink / .od-highlight`
- [ABSENT] vasic.digital — product — Accordion/disclosure — selector `.od-accordion__trigger` — no `.od-accordion` elements on page
- [ABSENT] vasic.digital — product — Language switcher — selector `#lang-btn / #lang-menu` — site has no language switcher control
- [ABSENT] vasic.digital — product — Dialog/modal — selector `[data-dl] -> #dl-modal`
- [ABSENT] vasic.digital — product — Lottie — selector `.od-lottie[data-src]` — no `.od-lottie` hosts — motion.js Lottie path never engages on this page
- [ABSENT] vasic.digital — product — Bounce/blink/highlight — selector `.od-bounce / .od-blink / .od-highlight`
- [ABSENT] vasic.digital — portfolio — Accordion/disclosure — selector `.od-accordion__trigger` — no `.od-accordion` elements on page
- [ABSENT] vasic.digital — portfolio — Language switcher — selector `#lang-btn / #lang-menu` — site has no language switcher control
- [ABSENT] vasic.digital — portfolio — Dialog/modal — selector `[data-dl] -> #dl-modal`
- [ABSENT] vasic.digital — portfolio — Lottie — selector `.od-lottie[data-src]` — no `.od-lottie` hosts — motion.js Lottie path never engages on this page
- [ABSENT] vasic.digital — portfolio — Bounce/blink/highlight — selector `.od-bounce / .od-blink / .od-highlight`

“Absent” means the effect the brief asked about does not exist on that page (nothing to break), not that it failed. See the matrix for the works/broken/absent split.
